## STRHH - Half of the half

[#basics \(/problems/tag/basics\)](/problems/tag/basics/)

Given a sequence of  $2*k$  characters, please print every second character from the first half of the sequence. Start printing with the first character.

### Input

In the first line of input your are given the positive integer  $t$  ( $1 \leq t \leq 100$ ) - the number of test cases. In the each of the next  $t$  lines, you are given a sequence of  $2*k$  ( $1 \leq k \leq 100$ ) characters.

### Output

For each of the test cases please print every second character from the first half of a given sequence (the first character should appear).

### Example

**Input:**  
4  
your  
progress  
is  
noticeable

**Output:**  
y  
po  
i  
ntc

bad\_code (/users/bad\_code): 2016-09-27 15:25:54

my program always passes the 3 visible test cassses but fails at the hidden test case. How do i even find out where the problem fails if i can't see the place where it fails?

abhi11095 (/users/abhi11095): 2016-09-23 19:28:07

The third case is not accepted and in progress case another character is showing after po

mahashwetha (/users/mahashwetha): 2016-09-14 19:51:48

why the third case fails always ?even though expected and actul o/p match in their comparison o/p screen ?

Add

1) Every Input String should not exceed length of 200  
->we need to print 1st char of every string  
->And every 2nd char till it reach half the length of word  
2) in Given example  
your -> its half is ->yo->so output is ->y  
progress - > its half is ->prog->so output is ->po  
is -> its half is->i->so output is->i (since we need to print 1st char)  
noticeable-> its half is-> notic->so output is->ntc

gauravfeb1996 (/users/gauravfeb1996): 2016-08-27 22:24:09  
can anyone explain the problem??

surya\_1998 (/users/surya\_1998): 2016-08-03 16:40:08  
Hey! @gvsharma see if your program still gives the correct answer if your first string has more than 4 strings,  
that was where i failed.

gvsharma (/users/gvsharma): 2016-08-03 13:51:54  
the third test case is always firing me..what to do?

john400 (/users/john400): 2016-08-01 05:45:47  
@vicky.Because it's telling only to print the characters from the first half sequence.

shivansh08 (/users/shivansh08): 2016-07-26 17:14:43  
can anyone explain how to get the output  
i just want to know how to get  
y  
po  
i  
ntc from  
your  
progress  
is  
noticeable
